

Accessibility Statement for Elevation Corporate Health Websites

Elevation Corporate Health is committed to ensuring digital accessibility for people with disabilities. We are continually improving the user experience for everyone, and applying the relevant accessibility standards.

Conformance

The Web Content Accessibility Guidelines (WCAG) defines requirements for designers and developers to improve accessibility for people with disabilities. It defines three levels of conformance: Level A, Level AA, and Level AAA. Elevation Corporate Health is partially conformant with WCAG 2.1 level AAA. Partially conformant means that some parts of the content do not or cannot fully conform to the accessibility standard aforementioned. This is due to our reliance on third-party sub processors that may not produce fully compliant content.

Feedback

We welcome your feedback on the accessibility of Elevation Corporate Health. Please let us know if you encounter accessibility barriers on Elevation Corporate Health:
